

## THE DAILY NEWS.

LARGEST CIRCULATION.—THE DAILY NEWS BEING THE NEWSPAPER OFFICIALLY RECOGNIZED AS HAVING THE LARGEST CIRCULATION IN THE CITY OF CHARLESTON, PUBLISHES THE LIST OF LETTERS REMAINING IN THE POSTOFFICE AT THE END OF EACH WEEK, ACCORDING TO THE PROVISIONS OF THE NEW POSTOFFICE LAW.

THE DAILY NEWS will be served to subscribers in the city at six dollars a year in advance, or at FIFTY CENTS a week, payable to the carriers.

## LOCAL MATTERS.

**MEETINGS THIS DAY.**  
Stonewall Fire Company, at half-past 7 P. M.

**THE MARINER'S CHURCH.**—There will be services in the Mariner's Church, Church-street, tomorrow, Sunday, at half-past ten o'clock in the morning, and half-past three o'clock in the afternoon.

**EARLY SPRING NAVAL STORES.**—We notice the receipt of fourteen barrels new crop pine oil in this market, from the turpentine farm in St. Thomas Parish of Messrs. J. A. Enslow & Co., and made of the grade gathered this season. Messrs. J. A. E. & Co. have sold this, the first arrival of the season, at eight dollars per barrel. J. C. Schuler is the proprietor of the farm and deserves much credit for the earliest production of naval stores this spring.

**THE GREAT ORGAN AT ST. PHILIP'S.**—The formal trial of this instrument took place last evening to the delight of an exceedingly large audience. It was successfully manipulated by Prof. James Buddock, Northham, Ecker, O'Neill, Harrison, and Mr. Trotter, of Cincinnati, son of our popular postmaster. The test developed the fact that for variety of stops and resources for all purposes of church music it is unrivaled. The organ is a natural and unexcelled, while the general harmony is a singularly perfect. In tone it is sweet, delicate and full of richness and power, and it may be safely said that the construction of this additional lustre on the skill and mechanical accomplishment of Mr. John Baker, the builder.

**JAMES ROBINSON'S CIRCUS.**—James Robinson, more familiarly known to our readers as "Little Jimmie," the boy who performed such wonderful feats in this city about twenty years ago, is now the proprietor of the best circus in America. A magnificent rider himself, he performs some of the most difficult and astounding feats of his show, and he knows how to choose other good performers and make them do their duty. He has with him a little man, who is as good as his father was at his age. A full list of the attractions of the circus is given in the advertisement in another column. The first exhibition will take place on Monday night, and tickets should be bought early to avoid the crowd which will rush to see what sort of a man "Little Jimmie" has become.

**PURIM.**—On the 14th day of the twelfth month, Adar (February 27), the Israelites celebrate the festival of Purim in commemoration of the deliverance of the Jewish nation from destruction in consequence of the vile plots of Haman, the confidant of King Ahasuerus, as may be read in the book of Esther in the Old Testament. It is not what is strictly called a Jewish feast, but a Rabbinical festival, a kind of a feast-day. From time immemorial it has been celebrated by the Jews by domestic and public feasts, by sending presents and gifts to kindred and friends, by giving alms to the poor, and by the reading of the book of Esther at the synagogue, and a special prayer of thanksgiving. At Anstett, in church and at the table. In later years mutual visits in masks were added to this prescribed ceremonial of old.

**THE WHITE FAWN.**—There was another unusually large audience at the theatre last night to witness the performance of the "White Fawn." There were more smoothness in the large troupe of character and improvement in the pictures presented. Some of the scenery is rich, and must have cost labor and thought in its arrangement, and when the size of the stage and other embellishments are considered, the wonder is that Templeton has been able to bring it out as well as he has. The ballet dancing, especially by Dian, is a marvel of motion and grace, and was loudly encored. The Vase scene still holds the favor of the public, while Harrison, in the imitative, and his accomplice, wife, have won a reputation with us that their genuine merit warrants. To-day there will be a matinee at two o'clock, when the admission will be reduced to half price, and thus afford an opportunity to those to attend who cannot do so at night.

**CLUBS AND STARS.**—The following cases were disposed of yesterday at the Mayor's Court: William Davis, with many aliases, colored, for stealing vegetables, was sent to the House of Correction for thirty days. S. Toner and A. Leon, white, arrested for disorderly conduct in the market; \$5 each. John Musgrove, white, found drunk in Wilson-street and carried to quardhouse on cart; discharged. John McLure, white, disorderly and tipsy in theatre. Fined \$5.

Wm. Johnson and Cyrus Frazier, colored, were taken to the House of Correction for five days for improper conduct. A brown dog, taken up going at large in King, near Queen-street, will be killed if the owner does not pay \$3 for license and \$5 for penalty. Martha Drayton, colored, was arrested by Detective Reed yesterday, and after fasting of the cell for some time, she told the whereabouts of a lot of sheets, pillow-cases and crockery she had stolen from Dr. King, Broad-street.

A colored man was found secreted in the premises of Captain Corrie last night, and before he did any mischief was taken to the quardhouse.

A sailor, on Savannah Dock Wharf, committed an assault and battery on a colored man yesterday, but managed to escape before he could be arrested.

**REPORTERS' GRUBS.**—A plank road is being laid down to Union wharf. It is rumored there is to be an oratorio at St. Paul's.

The schooler Volunteer has been laid upon and will be sold at auction on the 27th instant.

Forty-nine mules, fourteen horses and one trucking cart were sold at the Southern wharf to-day at ten o'clock, by Holmes & Macbeth.

The number of valuable dogs advertised lately leads to the impression that they are stolen by parties to get rewards.

The play adopted by THE NEWS to keep loungers away from the window sill by spilling them, is being adopted by others similarly annoyed.

The long-needed new flooring is being put down in the Courthouse.

Edward has been laid in the Courthouse and in the street outside, to prevent the noise so interrupting to judges and attorneys.

The "tooth up" given the buildings on East Bay, opposite Kerr's wharf, adds considerably to their appearance.

**COTTON FROM THE OTHER SIDE OF THE WORLD.**—The anxious perseverance with which the British merchant and manufacturer has looked for new cotton supplies continues with unabated vigor, and no part of the world that promises to produce the article that is not offered inducements for its growth. The latest competitor comes from the South Pacific Ocean, and is grown at the Society Islands and known as "Tahiti." It has lately been sold in the London market at prices ranging from 20 1/2 to 23 1/2 pence per pound. We are indebted to Mr. Winborn Lawton, factor, Boyce & Co.'s, Wharves, for this specimen of a sample, and should say, from this inspection, that it is not equal to our lowest grades of sea islands. Let the Southern planter persevere: Providence has given him unequalled advantages for the growth of the staple, and with energy and good management he need fear no competitor.

**THE STATE COURT—HON. R. D. CARPENTER, PRESIDING—FRIDAY, FEBRUARY 19.**—The State vs. William Armstrong, Castle Wailes, Jennings and Dave McKinlay alias Henry Burgess, indicted for burglary and larceny, was called. A. G. Magrath, Esq., appeared for the defense, and Mr. Solicitor General for the prosecution. After hearing his testimony and argument, under charge of his Honor, the jury returned a verdict of not guilty as to William Armstrong, and guilty of grand larceny as to Dave McKinlay. Jennings having escaped from jail some time since was not on trial. John Hall was arraigned on an indictment for burglary and larceny, but, on motion of W. J. Whaley, Esq., counsel for the defense, the trial of the case was postponed in order to give the prosecution time to produce evidence. Peter Belinger, indicted for larceny, was defended by R. C. Northrop, Esq., and found guilty of petty larceny. The State vs. Jackson Richardson, Josiah Richardson and Quash Hippy alias Poor Boy Happy, indicted for larceny of iron from the works of the Gas Company. R. W. Seymour and G. R. Walker, Esq., appeared for the defense, and the court was engaged in the hearing of the case until the hour of adjournment.

**THE UNITED STATES COURT, FEBRUARY 19.**—Hon. Geo. S. Bryan, Presiding.—James L. Mitchell and Gabriel Davis, bankrupts, were finally discharged. The petition of Margaret Moultrie and others to establish in law against the estate of N. Heyward was referred to J. C. Northrop, Esq., and found guilty of petty larceny. The State vs. Jackson Richardson, Josiah Richardson and Quash Hippy alias Poor Boy Happy, indicted for larceny of iron from the works of the Gas Company. R. W. Seymour and G. R. Walker, Esq., appeared for the defense, and the court was engaged in the hearing of the case until the hour of adjournment.

**HOTEL ARRIVALS, FRIDAY, FEBRUARY 19.**—Pavilion Hotel.—R. E. Clark, S. H. Sanford, J. Woolf, R. Stuart, J. H. Conley, White Fawn; Fred Lawrence, New Orleans; P. U. Greenwell, Opera Troupe; J. P. Coleman, Kentucky; M. G. Doughty, O. H. Doipe, New Orleans; G. D. Pike, New York; J. T. O'Connell, South Carolina; A. N. Niles, Augusta; Edie Smith, New York; J. L. Hampton, Orangeburg; J. H. Brande, Florida; J. M. Stagg, South Carolina; J. H. Brown, Philadelphia; J. U. Edward, J. Watson, O. H. Whitfield, Williamsburg District. Charleston Hotel.—W. M. Bird and wife, Savannah; W. T. J. O'Woodward, South Carolina; H. E. Raymond, Boston; E. D. Darby and wife, Vauclon; O. Hewitt, Brunswick; E. M. Rucker, Georgia; S. S. Johnson, South Carolina; S. C. Logan, Pennsylvania; G. V. Woodruff, New Orleans; R. H. Child, J. P. Upman, USA; J. M. Child, A. Clifton, Mrs. Child, J. Child, New York; J. Hill, Marion; S. M. Seelye, Louisville; P. K. Vance, South Carolina; A. M. Latham, St. Andrews.

**BUSINESS NOTICES.**  
**AKEN PROPERTY FOR SALE.**—Mr. Geo. Connor, No. 11 Broad-street, advertises for sale in THE NEWS some very desirable real estate in Aiken. There is no part of the South where real estate is increasing so rapidly in value as in Aiken and its vicinity, and it is not unlikely that it will continue to double year by year for the next ten years.

**SPRING STYLE HATS.**—The "very latest," at "The Temple of Fashion," No. 269 King-street, February 11. H. C. H. JOHNSON.

**Business Cards.**

**PATAPSCO GUANO.**  
Letter from James Pagan.  
CHESSTER, SOUTH CAROLINA, January 6, 1869.  
Dear Sir—I have just received communication from Geo. W. Griffin, Esq., Treasurer of Patapasco Guano Company, requesting my opinion of the "PATAPSCO" to be sent direct to you—which I take pleasure in doing, as I fully believe that it is the best fertilizer now in use. I have tested its merits fully, and find those who have used it alongside of other popular fertilizers, do not hesitate to give it the preference; there are many kinds in use here and the merchants who deal in it. No two houses reason the same kind, but during the last season I had a good opportunity of introducing the "PATAPSCO" Guano to some extent.  
I have to ten (10) different planters 500 pounds GUANO to put each on one acre of land, and agreed to take part of the product for pay. They all succeeded well. I got nearly 100 per cent. profit from the ten acres, and the planters are satisfied that they got 50 to 100 per cent. more than they could have expected on the same land without the GUANO. I also sold small quantities to some twenty or thirty planters, who tried it on all sorts of land. Some of them certify to wonderful results, and every one of them have engaged to take more for the coming season. I expect to sell ten times the amount which was taken last season.  
I began in 1847, and have not heard one man say it did not over-pay him for his outlay. In some respects it is not superior to the Peruvian Guano. For instance, you can mix the seed with the Patapasco, and the Peruvian must be covered before planting. The "PATAPSCO" acts at once upon the sprouts, as soon as it comes from the seed and makes it start right off growing, and prevents the sickly stage which cotton, without the stimulus, has to go through—you know that. For two or three weeks the cotton plant is in a condition which is so precious that no planter can say that he has a certain stand. I believe the "PATAPSCO" secures a better and more healthy stand than can be had by the application of any other fertilizer. I speak from experience made for two years. I have planted a little cotton for the purpose of watching the result, and am sure that by using the PATAPSCO GUANO will secure an early and healthy stand of cotton, which is just what a grower starts in any kind of crop.  
I would recommend 250 to 300 pounds to the acre. I made 600 pounds out from one acre by planting 500 pounds of "PATAPSCO," which made 200 pounds of year before without it, and the season of 1867 was better for cotton than 1868. The same field on the part not fertilized made more in 1867 than in '68. I think it would pay best, however, for about 500 pounds to the acre. Respectfully,  
(Signed) JAMES PAGAN.

PACIFIC GUANO.  
CAPITAL.....\$1,000,000  
THIS GUANO DIFFERS FROM PERUVIAN Guano simply in the relative proportions of the same elements of fertility.  
The use during the past four years for the culture of cotton in this country has given to it a character of standard excellence unsurpassed by genuine Peruvian Guano, and where seasons of drought interfere, produces a more rapid and healthy growth. The place at which this Guano is placed is so much better than that of Peruvian Guano, as to constitute it an object of the highest importance to Southern Agriculture.  
The large capital and resources of the Company enable it to furnish a Guano of the highest quality at the lowest possible cost to consumer, and the highest interest of the company is recognized in this point.  
The Company looks to large sales, and its profits and a permanent trade for compensation on capital invested.  
DR. ST. JULIEN RAVENEL, of South Carolina, is Scientific Director to the Company, which affords a guarantee of the continued excellence of the Guano. None of the Guano is sold without the name of JOHN A. ENSLOW & CO., General Agents, and the name of the GUANO COMPANY, and for terms and mode of application, see Circulars sent for the State of South Carolina.

**PATAPSCO GUANO.**  
Letter from James Pagan.  
CHESSTER, SOUTH CAROLINA, January 6, 1869.  
Dear Sir—I have just received communication from Geo. W. Griffin, Esq., Treasurer of Patapasco Guano Company, requesting my opinion of the "PATAPSCO" to be sent direct to you—which I take pleasure in doing, as I fully believe that it is the best fertilizer now in use. I have tested its merits fully, and find those who have used it alongside of other popular fertilizers, do not hesitate to give it the preference; there are many kinds in use here and the merchants who deal in it. No two houses reason the same kind, but during the last season I had a good opportunity of introducing the "PATAPSCO" Guano to some extent.  
I have to ten (10) different planters 500 pounds GUANO to put each on one acre of land, and agreed to take part of the product for pay. They all succeeded well. I got nearly 100 per cent. profit from the ten acres, and the planters are satisfied that they got 50 to 100 per cent. more than they could have expected on the same land without the GUANO. I also sold small quantities to some twenty or thirty planters, who tried it on all sorts of land. Some of them certify to wonderful results, and every one of them have engaged to take more for the coming season. I expect to sell ten times the amount which was taken last season.  
I began in 1847, and have not heard one man say it did not over-pay him for his outlay. In some respects it is not superior to the Peruvian Guano. For instance, you can mix the seed with the Patapasco, and the Peruvian must be covered before planting. The "PATAPSCO" acts at once upon the sprouts, as soon as it comes from the seed and makes it start right off growing, and prevents the sickly stage which cotton, without the stimulus, has to go through—you know that. For two or three weeks the cotton plant is in a condition which is so precious that no planter can say that he has a certain stand. I believe the "PATAPSCO" secures a better and more healthy stand than can be had by the application of any other fertilizer. I speak from experience made for two years. I have planted a little cotton for the purpose of watching the result, and am sure that by using the PATAPSCO GUANO will secure an early and healthy stand of cotton, which is just what a grower starts in any kind of crop.  
I would recommend 250 to 300 pounds to the acre. I made 600 pounds out from one acre by planting 500 pounds of "PATAPSCO," which made 200 pounds of year before without it, and the season of 1867 was better for cotton than 1868. The same field on the part not fertilized made more in 1867 than in '68. I think it would pay best, however, for about 500 pounds to the acre. Respectfully,  
(Signed) JAMES PAGAN.
